

YX023-PCS

Directional Outdoor Signal Antenna (for YX500-PCS)

The YX023-PCS is an optional outdoor antenna upgrade for the YX500-PCS which provides additional signal strength in interior spaces and is used to increase the area of improved cell coverage. The antenna is recommended for areas with weak outdoor signals strength to provide peak system performance. The YX023-PCS antenna replaces the omni-directional signal antenna and provides 13 dBi of gain. All hardware is included to mount on masts up to 2 ½" diameter.

YX023-PCS Front View

Benefits

- Easy installation on masts up to 2 ½" diameter
- Provides 13 dBi of gain
- Recommended upgrade for areas of weak outdoor PCS signals
- Increase indoor signal strength for peak system performance
- Increase indoor coverage area

YX023-PCS Specifications

Frequency	1850-1990 MHz
Gain	13 dBi
Beamwidth	35 degrees
Polarization	Vertical
Dimensions	7.25"L x 6"W x 2"D
Weight	1.73 lbs.
Connector	Type F female connector on rear of antenna
Mounting	May be mounted on masts up to 2 ½" diameter
UPC Code	1 86639 00001 4
